

Listed below are brief descriptions for each of the automated migration, conversion, and tuning utilities available from **PÍR Group Inc.** Additional software information and product overviews are available at www.PIRGROUPINC.com

Product: PÍR Group Inc. –**COBOL KeePIR for native iSeries**
Category: Migration/Conversion Tools, Automated / Services
Description: Automated conversion utility to convert mainframe CICS COBOL to native iSeries COBOL.

Product: PÍR Group Inc. - **COBOL KeePIR for CICS400**
Category: Migration/Conversion Tools, Automated / Services
Description: Automated conversion utility to convert mainframe CICS COBOL to the iSeries using CICS400.

Product: PÍR Group Inc. - **COBOL KeePIR for IDMS**
Category: Migration/Conversion Tools, Automated / Services
Description: Automated conversion utility to convert the mainframe IDMS to the native iSeries relational database.

Product: PÍR Group Inc. - **COBOL KeePIR for IMS/DL1**
Category: Migration/Conversion Tools, Automated / Services
Description: Automated conversion utility to convert IMS and DL1 to the iSeries relational database.

Product: PÍR Group Inc. - **COBOL KeePIR for Datacom**
Category: Migration/Conversion Tools, Automated / Services
Description: Automated conversion tool to convert the Datacom database and COBOL to run native on the iSeries.

Product: PÍR Group Inc. - **COBOL KeePIR for ADS/O**
Category: Migration/Conversion Tools, Automated / Services
Description: Automated conversion utility to convert CA- ADS/O to native iSeries DDS.

Product: PÍR Group Inc. - **COBOL KeePIR for MVS JCL to iSeries CL**
Category: Migration/Conversion Tools, Automated / Services
Description: Automated conversion utility to convert mainframe MVS JCL to iSeries CL.

Product: PÍR Group Inc. - **COBOL KeePIR for DOS/VSE JCL to iSeries CL**
Category: Migration/Conversion Tools, Automated / Services
Description: Automated conversion utility to convert mainframe DOS/VSE JCL to iSeries CL.

Product: PÍR Group Inc. - **COBOL KeePIR for Data General to iSeries**
Category: Migration/Conversion Tools, Automated / Services
Description: Automated conversion utility to convert Data General COBOL to the iSeries.

Product: PÍR Group Inc. - **COBOL KeePIR for Data General to MICROFOCUS COBOL**
Category: Migration/Conversion Tools, Automated / Services
Description: Automated conversion utility to convert Data General COBOL to MICROFOCUS COBOL.

Product: PÍR Group Inc. - **COBOL KeePIR for GENER/OL to iSeries - DDS**
Category: Migration/Conversion Tools, Automated / Services
Description: Automated migration utility to convert GENER/OL on-line programs to the native iSeries DDS.

Migration utilities listing continued-

Product: **PÍR Group Inc. - COBOL KeePIR for GENER/OL to CICS - BMS**
Category: Migration/Conversion Tools, Automated / Services
Description: Automated migration utility to convert GENER/OL on-line programs to the native CICS and BMS maps.

Product: **PÍR Group Inc. - COBOL KeePIR for Easytrieve**
Category: Migration/Conversion Tools, Automated / Services
Description: Conversion tool to convert Easytrieve report programs to run in OPEN/DB report writer.

Product: **PÍR Group Inc. - COBOL KeePIR for WANG to Mainframe**
Category: Migration/Conversion Tools, Automated / Services
Description: Automated migration utility to migrate WANG VS COBOL to mainframe CICS COBOL and WANG VS procedures to mainframe JCL.

Product: **PÍR Group Inc. - COBOL KeePIR for WANG to iSeries**
Category: Migration/Conversion Tools, Automated / Services
Description: Automated conversion utility to convert WANG VS COBOL to native iSeries COBOL.

Product: **PÍR Group Inc. - COBOL KeePIR for WANG to Micro Focus**
Category: Migration/Conversion Tools, Automated / Services
Description: Automated conversion utility to convert WANG VS COBOL to MICROFOCUS COBOL.

Product: **PÍR Group Inc. - COBOL KeePIR for ADS/O to BMS maps**
Category: Migration/Conversion Tools, Automated / Services
Description: Automated conversion utility to convert CA- ADS/O to mainframe CICS BMS maps.

Product: **PÍR Group Inc. - COBOL KeePIR for IDMS to DB2**
Category: Migration/Conversion Tools, Automated / Services
Description: Automated conversion utility to convert the CA owned IDMS database to mainframe DB2.
